

# Overhead LED Task Light

*Slim, sleek lighting for overhead cabinets and shelves.*

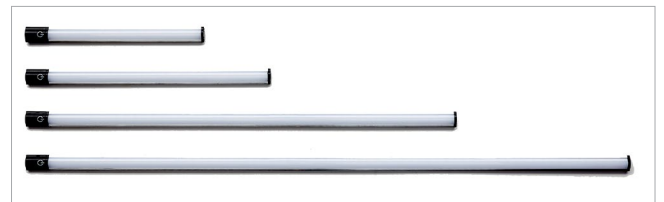

Create a lighting solution for any space with Overhead LED Task Lights. These slim, sleek lights easily fit below overhead storage units or shelves. Lights can be attached either magnetically or with a screw-mounted bracket (included) that works on any surface such as laminate or metal.

**Single Units** - used individually in a work space, offer user-controlled on/off function, touch-and-hold dimming, a 9' power supply and two cord managers. Consumes up to 18W of energy.

**Starter Units** - can be daisy-chained to adder units, offer user-controlled on/off function, touch-and-hold dimming, an 11' power supply and two cord managers. Consumes up to 60W of energy.

**Adder Units** - can be daisy-chained to starter units, are controlled by the starter unit (no power supply), include 18" jumper and two cord managers.

## Specifications:

All lights are ETL listed and compliant to UL 153.

Single, starter, and adder units are available in four different lengths (12", 17", 31" and 44").

Finish is silver anodized aluminum with black plastic end caps
