How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor's website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer's upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer's responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

RUCKUS 4-LEG AND STACK CHAIR FEATURES

- A. Handle**
Integrated back handle for easy movement and stacking.
- B. Field Replaceable**
Seat and back are mechanically fastened to allow easy field-replacement.
- C. Stacking**
Unique frame design allows the stack chair to stack with or without book bag rack.
- D. Optional Steel Book Bag Rack**
Accommodates book bags of any size and is available in monochromatic or contrasting finish.
- E. Glides**
Swivel glides available in nylon, steel or felt to accommodate a variety of floor materials.
- F. Optional Casters**
Dual-wheel hard casters allow easy movement on carpet. Soft casters available for hard floors.
- G. Armrests**
Integral armrest also functions as a work surface or a place to perch.
- H. Optional Upholstered Seat**
Upholstered seat pad offers added comfort.

RUCKUS SEATING

Description

Ruckus promotes student movement through its unique design. Its generously sized seating encourages an "as you like it" sitting experience. The chair back shape includes integral armrests, which are also engineered to function as a support surface.

Seat and Backrest

Both the seat and backrest shell shall be made of static-free high-impact 7% fiberglass-reinforced polypropylene. Colorfastness is ensured through complete color impregnation throughout the molded part. Textured on both sides with a contrasting texture pattern on the seat. Ergonomic handle molded into the chair backrest for ease of mobility. Seat and backrest fasten to the frame with six 1/4-20 x 3/4" Hi-Lo screws.

Optional Upholstered Seat

Upholstered seats have partially exposed polypropylene surfaces. Molded Urethane foam is attached to an injection-molded polypropylene liner

board, then upholstered using a draw-string process and fastened to an inner shell with screws. Seat foam is molded nominal 1" thickness.

Frames

Four Leg, Stack, Stool and Task frames are constructed with 1" outside diameter 13-gauge steel tubing, welded to 13-gauge steel plates and 1/4" wire. Frame shall be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete.

Glides

Stack, Stool & Four Leg Chairs - Swivel-type polished zinc-plated steel, nylon plastic, or felt glides. KI recommends consulting with the floor manufacturer for specific glide recommendations. **Note:** Felt glides add 1/4" to the overall height range.

Task Chair - Optional Bell glides (2" high) made of high impact plastic also available. Black only. **Note:** Bell glides add 1/4" to the overall height range.

Casters

Carpet Casters Option - 50mm double wheels of high-impact thermoplastic. High-impact plastic frame. Black finish only.

Hard Floor Casters Option - 50mm double wheels of soft plastic. High-impact plastic frame. Black finish only.

Task Chair

Pneumatic Height Adjustment
Lever-activated pneumatic cylinder enables seat-height adjustment from 16-1/2" to 21-1/4".

Five Blade Base

28" injection molded, 30% fiberglass reinforced nylon 5-blade base. Available in Black or Warm Gray.

Bookbag Rack

Stack Chair Frame - Optional bookbag rack is a welded framework of 1/4" diameter solid wire welded to four 1/8" thick plates. Fastened to stackable chair frame with eight #10 screws. Bookbag rack will be nickel-chrome plated or

finished in powdercoat paint after all welding processes are complete.

Testing

Ruckus chair components shall originate from ISO 9000, ISO 9001 or ISO 9002 registered facilities. Ruckus chairs are designed and manufactured to meet or exceed required ANSI/BIFMA X6.1-2012 Education Seating and ANSI/BIFMA X5.1-2011 General Purpose Office Chairs.

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests, contact Customer Service for details.

Whatever you imagine, whatever you require: KI's Color Match program lets you pick your color!

Color Match Process - Poly Seating information can be found here.

General Guideline for Glide Selection

The following information is based on a combination of testing and experience. Due to factors beyond our control, KI is presenting this information strictly as a general guideline to assist our customers in selecting the best glide for their situation. It is up to the customer to determine which glide will perform best for their application based upon their site conditions, requirements, and the direction of the flooring manufacturer. Sample glides are available upon request to aid the customer in their selection (contact Customer Service).

Price list glide choice of: Nylon, Steel or Felt

Nylon

Steel

Felt - Solo Glide®

PERFORMANCE GUIDE (clean and properly finished floors)

GLIDE MATERIAL	CARPET	RESILIENT FLOORING			HARD FLOORING		
		Vinyl Sheet	VCT	Rubber	Ceramic Tile	Concrete	Hardwood
Nylon	★★	★★	★★	★★	★★	★★	NR
Steel	★★	*	*	*	NR	NR	NR
Felt	NR	*	NR	NR	NR	NR	★★

★★ = Best Performance

* = Acceptable Performance

NR = Not Recommended

Steel glides are not recommended for light colored floors.

The following factors affect the performance of any glide:

- **Floor Quality** – Materials and manufacturing processes for a specific floor type can vary considerably depending upon the manufacturer and product grade. Floor grades with higher stain and abrasion resistance will typically perform better.
- **Floor Preparation** – The quality and frequency of application of the floor finish will significantly affect the amount of wear. A high quality finish will act as a lubricant between the chair and floor to minimize wear.
- **Floor Maintenance** – Any glide material will leave marks if the floor is not properly cleaned. The use of walk-off rugs near entrances, along with frequent cleaning of the floors, will significantly reduce damage to floors. Steel glides should not be exposed to wet or damp floors.
- **Damaged Glides** – Periodic inspection of glides is critical to preventing floor damage. Glides that are damaged, worn or have embedded debris should be replaced immediately. Felt caps wear faster and should be replaced frequently.

RUCKUS CANTILEVER DESK FEATURES

- A. Curved Worksurface**
Generously sized worksurfaces with a curved edge provide additional belly room and enhanced comfort.
- B. Durable Edges**
73P bonded poly edge banding provides moisture and tamper resistance (available in numerous standard colors).
- C. Fixed or Sit/Stand Adjustable Height**
Desks are available in 29" fixed heights as well as pneumatic or set screw sit/stand adjustable heights.
- D. Single Post**
Unique single post cantilever base maximizes leg clearance and improves ingress/egress.
- E. Optional Front Rollers**
Front rollers (with rear glides) provide mobility with a wheelbarrow motion.
- F. Optional Book Bag Hooks**
Available on both sides, unless a cupholder is specified.
- G. Optional Book Basket**
Basket frame includes two integrated book bag hooks, one on each side.
- H. Optional Cup Holder**
Swiveling cup holder is available on either the left or right side.

RUCKUS DESK

Fixed-Height Desk – Single-Post Cantilever

Frames are constructed with 2" and 1-1/4" by 14-gauge steel tubing welded to a 7-gauge steel plate. Frame shall be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. The 1-1/4" horizontal tubing is capped with a plastic plug (offered in black only).

Pneumatic Adjustable-Height Desk – Single-Post Cantilever

The top of the worksurface adjusts between 27-1/4" and 41-1/2" from the floor by activating a pneumatic cylinder using a lever located on the non-user side of the worksurface.

The desk base consists of a lower frame weldment and adjustable upper column assembly. The lower frame is constructed with 2" and 1-1/4" by 14-gauge steel tubing and can be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. The 1-1/4"

horizontal tubing is capped with a plastic plug (offered in black only).

The adjustable upper column assembly is constructed of a 3" diameter aluminum extrusion and is capped using a black cast zinc flange attached by six, 1/4"-20 x 1-1/2" screws. The upper column assembly is finished in powder-coat paint. Nickel-chrome plating is not available on the upper column assembly. Upper assembly will be painted Starlight Silver when nickel-chrome plating is specified for the lower frame.

The worksurface is attached to the flange using five, #12 x 7/8" wood screws. Product is shipped fully assembled, one unit per carton.

The pneumatic cylinder includes a locking feature to prevent vertical movement when any force is applied to the worksurface and the cylinder is not actuated.

The weight capacity is less than 15 lbs. Capacity represents the total amount of weight the cylinder can lift without assistance from the user.

Set Screw Adjustable-Height Desk and ADA Desk – Single-Post Cantilever

The top of the worksurface adjusts between 27-1/4" and 41-1/4" from the floor by locking with a 1/4"-20 x 1/2" dog point set screw in 1" increments. (ADA Desk adjusts between 27-1/4" and 31-1/4")

The desk base consists of a lower frame weldment and adjustable upper column assembly. The lower frame is constructed with 2" and 1-1/4" by 14-gauge steel tubing and can be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. 1-1/4" horizontal tubing is capped with a plastic plug (offered in black only).

The adjustable upper column assembly is constructed of a 3" diameter aluminum extrusion and is capped using a black cast zinc flange attached by six, 1/4" x 20 x 1-1/2" screws. The upper column assembly is finished in powder-coat paint. Nickel-chrome plating is not available on the upper column assembly. Upper assembly will be painted Starlight Silver when nickel-chrome

plating is specified for the lower frame.

The worksurface is attached to the flange using five, #12 x 7/8" wood screws. (For the ADA Desk, a steel plate is attached to the bottom of the worksurface using fourteen, #12 x 3/4" wood screws. The steel plate and worksurface is then attached to the support flange using eight, #12 x 5/8" wood screws.) Product is shipped fully assembled, one unit per carton.

Rolling Base Model (wheelbarrow)

Rolling base model includes two rollers located on the non-user side of the frame, with two swivel glides located on the user side for ease of mobility. Roller will be constructed of a two-piece milled polycarbonate housing with steel axle, supporting a 1-1/4" diameter wheel constructed of high impact styrene and secured to base frame with a 1/4"-20 x 5/8" screw. Cantilever frame will include cutouts to encapsulate roller assembly. Roller assembly is offered in black only. Swivel-type glides are polished zinc-plated steel with nylon plastic, or felt feet surfaces. KI recommends consulting with the floor manufacturer for specific

glide recommendations. **Note:** Felt glides increase product height by 1/4". **Note:** Glides cannot be swapped with rollers or rollers with glides.

Top

Worksurface top consists of high-density particleboard core covered with .030" high-pressure laminate top and a .020" phenolic backing sheet and 73P polypropylene edge with a finished top thickness of 13/16". Worksurface includes a curved front comfort curve on user side and 2-3/8" radius corners. Worksurface measures 20" x 30". (ADA worksurface measures 25" x 36")

Glides

Swivel-type glides are polished zinc-plated steel with nylon plastic, or felt feet surfaces. KI recommends consulting with the floor manufacturer for specific glide recommendations.

Note: Felt glides increase product height by 1/4". (See Saabing General Information for General Guidelines for Glide Selection.)

Book Bag Hook

Optional book bag hook is formed from 1/4" solid

wire rod. Chrome finish provides long lasting wear resistance. Hook fastens to underside of laminate top with two #12 x 3/4" Phillips pan-head screws. Book bag hook is fully assembled to both sides of desk prior to shipment.

Book Basket

Optional book basket with integrated book bag hooks is formed from 1/4" solid wire rod. Book basket can be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. Measures 24-1/2" wide x 13" deep x 3-1/4" high. Fastens to underside of worksurface top with six #12 x 3/4" Phillips pan-head screws. Book basket is fully assembled to desk prior to shipment.

Swiveling Cup Holder

Optional cup holder is made of 11-gauge steel and includes a 3" diameter cutout for drinks. Offered in Starlight Silver only. Cup holder is fully assembled to desk prior to shipment. Designate left or right hand location when selecting swiveling cup holder option.

Testing

Ruckus desk components originate from ISO 9000, ISO 9001 or ISO 9002 registered facilities. Ruckus desk is designed and manufactured to meet or exceed required ANSI/BIFMA X5.5-2014 Desking.

MOBILE LECTERN

Mobile Lectern – Single-Post Cantilever

The top of the worksurface adjusts between 28-3/4" and 42-3/4" from the floor by activating a pneumatic cylinder using a lever located on the user side of the worksurface.

The lectern base consists of a lower frame weldment and adjustable upper column assembly. The lower frame is constructed with 2" and 1-1/4" by 14-gauge steel tubing and can be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. The 1-1/4" horizontal tubing is capped with a plastic plug (offered in black only). Available with casters only.

The adjustable upper column assembly is constructed of a 3" diameter aluminum extrusion and is capped using a black cast zinc flange attached by six, 1/4"-20 x 1-1/2" screws. The upper column assembly is finished in powder-coat paint. Nickel-chrome plating is not available on the upper column assembly. Upper assembly will be painted Starlight Silver when nickel-chrome plating is

specified for the lower frame;

The worksurface is attached to the flange using five, #12 x 7/8" wood screws. Product is shipped fully assembled, one unit per carton.

The pneumatic cylinder includes a locking feature to prevent vertical movement when any force is applied to the worksurface and the cylinder is not actuated.

The weight capacity of the Ruckus Mobile Lectern with accessories (modesty panel, book basket and cupholder) is less than 15 lbs. Weight capacity is 20lbs when accessories are not specified. Capacity represents the total amount of weight the cylinder can lift without assistance from the user.

Top

Worksurface top consists of high-density particleboard core covered with .030" high-pressure laminate top and a .020" phenolic backing sheet and 73P polypropylene edge with a finished top thickness of 13/16". Worksurface includes a curved front comfort curve on user side and

2-3/8" radius corners. Worksurface measures 20" x 30".

Casters

Casters are single wheel with a 40mm outside dimension and constructed from high-impact thermoplastic. Available with hard or soft wheel surface. Black only.

Modesty Panel

Modesty panels are 20" x 20" with 2.31" radius corners constructed of 1/4" thick Acrylite Satinica material with a velvet texture and a very fine satin surface on both sides. Modesty panels are located on the underside of the worksurface and held in place using six #10-24 x 3/4" knurled thumb-screws and two 14-gauge steel rackets. See Product Color Options for available finish options.

Book Bag Hook

Optional book bag hook is formed from 1/4" solid wire rod. Chrome finish provides long lasting wear resistance. Hook fastens to underside of laminate top with two #12 x 3/4" Phillips pan-head screws. Book bag hook is fully assembled to desk prior to

shipment.

Book Basket

Optional book basket with integrated book bag hooks is formed from 1/4" solid wire rod. Book basket can be nickel-chrome plated or finished in powder-coat paint after all welding processes are complete. Measures 24-1/2" wide x 13" deep x 3-1/4" high. Fastens to underside of worksurface top with six #12 x 3/4" Phillips pan-head screws. Book basket is fully assembled to desk prior to shipment.

Swiveling Cup Holder

Optional cup holder is made of 11-gauge steel and includes a 3" diameter cutout for drinks. Offered in Starlight Silver only. Cup holder is fully assembled to desk prior to shipment.

Testing

Ruckus lectern components originate from ISO 9000, ISO 9001 or ISO 9002 registered facilities. Ruckus lectern is designed and manufactured to meet or exceed required ANSI/BIFMA X5.5-2014 Deskings.

RUCKUS MOBILE LECTERN FEATURES

- A. Curved Worksurface**
Generously sized worksurfaces with a curved front edge provide additional belly room and enhanced comfort.
- B. Durable Edges**
73P bonded poly edge banding provides moisture and tamper resistance (available in numerous standard colors)
- C. Adjustable Height**
Sit/Stand height pneumatically adjusts from 28 3/4" to 42 3/4"
- D. Mobility**
Casters provide mobility to promote flexibility.
- E. Optional Book Bag Hooks**
Available on both sides, unless a cupholder is specified.
- F. Optional Book Basket**
Basket frame includes two integrated book bag hooks, one on each side.
- G. Optional Cup Holder**
Swiveling cup holder is available on either left or right side.
- H. Optional Modesty Panel**
Seven acrylic colors to choose from.

PRODUCT SPECIFICATIONS

Ruckus® Stacking Desks

October 2024

TECHNICAL SPECIFICATIONS

Desktops

All tops are 3/4" nominal overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). The density of the core in 3/4" thick tops is 45 lb/cu ft particleboard, M3 grade. All tops have a 2 mm bonded edge band for tamper and moisture resistance (73P). All desktops are available with either square or rounded corners.

Desk Frame

All desks have a welded steel frame consisting of two horizontal stringers and two horizontal crossbars made from 1 1/4" 14-gauge square tubing, four vertical leg tubes made from 1 1/2" O.D. 14-gauge round tubing, and six 14-gauge steel worksurface mounting brackets. The vertical legs of the desk frames are available in two variations, one for 29" fixed height desks and the other for 21-32" adjustable height desks.

Fixed-Height Legs

The vertical leg tubes of the fixed-height desk frames are roughly 26" in length and have pressed-in 3/16"-18 threaded tube inserts at the bottom for caster or glide attachment. Casters and glides are shipped assembled to the legs.

Screw Adjustable-Height Legs

The vertical leg tubes of the adjustable height desk frames are roughly 18" in length and are open at the bottom for inclusion of adjustable lower legs. The adjustable lower (inner) leg members are made from 1 1/4" O.D. 14-gauge round tubing and are roughly 14" in length. The adjustable lower leg tubes include thirteen tapped mounting holes for twelve desk height options ranging from 21" to 32" in one inch increments, and attach to the upper (outer) leg tubes via two 1/4"-20 screws. At the bottom of the adjustable lower leg tubes are pressed-in 3/16"-18 threaded tube inserts for caster or glide attachment. Casters and glides are shipped assembled to the legs.

Castors & Glides

Each desk includes either: all casters, all glides, or a caster and glide mix that includes casters for two legs and glides for two legs. Casters are 50 mm O.D. double-wheel, molded nylon, black, unhooded, with brake and use a 3/16"-18 threaded steel stem for mounting. Glides are either: Black nylon with a 3/16"-18 threaded steel stem or Black nylon with felt base with a 3/16"-18 threaded steel stem. Glides are utilized with a glide locking spacer. The spacer has a steel 3/16"-18 threaded hole. The spacer and glide combination allows for interchangeability between glides and casters without a change in height of the desk surface.

Slide Strips

Each desk includes extruded polypropylene slide strips that are adhered to the underside of the desk frame stringers and front crossbars. The slide strips provide protection to the desktop surface and edge while the desks are stacked and unstacked.

DIMENSIONS

Ruckus Stacking Desks Footprint Calculations

Ruckus stacking desks have a maximum stacking quantity of four desks.

Stacking Height Footprint Calculation: Overall height of stacked desks = 29" for the first desk, plus 2³/₈" for each additional stacked desk.

Examples: 2 desks: $29" + (2\frac{3}{8}" \times 1) = 31\frac{3}{8}"$
 4 desks: $29" + (2\frac{3}{8}" \times 3) = 36\frac{1}{4}"$

Stacking Desk Height Footprint Examples

Number of Desks	Overall Height of Desks
1	29"
2	31 ³ / ₈ "
3	33 ³ / ₄ "
4	36 ¹ / ₄ "

Stacking Width Footprint Calculation: Overall width of stacked desks = 29³/₄" or 35¹/₄" for the first desk (depending on the width of the unit), plus 3³/₈" for each additional stacked desk.

Examples: 2 desks (30" W): $29\frac{3}{4}" + (3\frac{3}{8}" \times 1) = 33\frac{1}{8}"$
 4 desks (36" W): $35\frac{1}{4}" + (3\frac{3}{8}" \times 3) = 45\frac{7}{8}"$

30" Wide Stacking Desk Width Footprint Examples

Number of Desks	Overall Width of Desks
1	29 ³ / ₄ "
2	33 ¹ / ₈ "
3	36 ¹ / ₂ "
4	39 ⁷ / ₈ "

36" Wide Stacking Desk Width Footprint Examples

Number of Desks	Overall Width of Desks
1	35 ¹ / ₄ "
2	39 ¹ / ₈ "
3	42 ¹ / ₂ "
4	45 ⁷ / ₈ "

PRODUCT SPECIFICATIONS ■

Ruckus Post-Leg Desks & Activity Tables

October 2024

TECHNICAL SPECIFICATIONS

Post-Leg Desktops & Activity Tabletops

All tops are 1/4" or 3/4" nominal overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). All post-leg desks and kite and diamond activity tables are available with either top thickness. All remaining activity tables are only available with the 1/4" top thickness. The density of the core in standard tops is 45 lb/cu ft particleboard, M3 grade. All tops have a 2 mm bonded edge band for tamper and moisture resistance, specified as 74P for 1/4" tops and as 73P for 3/4" tops.

Post Leg Assembly

Leg assembly heights are achieved by accounting for 1/4" tabletop thickness. For tables or desks with 3/4" tops, height dimensions are 1/2" (nominal) less. Leg assemblies come in four variations, 29" fixed-height, 12-19" floor adjustable-height, 20-33" sit adjustable-height, & 29-42" sit-stand adjustable-height. All adjustable-height table legs adjust with screws in 1" increments.

Fixed-Height Post Leg Construction

Consists of a 1 1/4" O.D. 14-gauge steel tube welded to a 1/4" thick mounting plate. Leg bottom has a pressed-in steel insert with 5/16"-18 UNC threaded hole for either caster or glide.

Screw Adjustable-Height Post Leg Construction (upper & lower leg members)

The upper (outer) leg member consists of a 1 1/4" O.D. 14-gauge steel tube welded to a 1/4" thick mounting plate. The lower (inner) leg member consists of a 1/2" O.D. 14-gauge steel tube containing fifteen 1/4"-20 UNC holes in 1" increments to allow for error-free desk and table height adjustment, and has a pressed-in plastic insert at floor level with 5/16"-18 UNC steel threaded hole for either caster or glide. Height adjustment of each leg assembly is locked using two 1/4"-20 screws with lock washers at the outer leg member, threading into the inner leg member. Post-leg desks & kite or diamond activity tables use a 1/4" thick triangular mounting plate (5 x 6 1/2"). All other tables use a 1/4" thick square mounting plate (8" x 8"). Casters and glides are shipped assembled to the legs. Adjustable legs with a height range of 12-19" are shipped from the factory pre-set to 19" table height. Adjustable legs with a height range of 20-42" are shipped from the factory pre-set to 29" table height.

Castors & Glides

Each table includes either: all casters, all glides, or a caster and glide mix that includes casters for two legs and glides for all remaining legs. 12-19" post-leg assemblies are available with glides only and do not include spacers. Casters are 50 mm O.D. double-wheel, molded nylon, black, unhooded, with brake and use a 5/16"-18 threaded steel stem for mounting. Glides are either: Black nylon with a 5/16"-18 threaded steel stem or Black nylon with felt base with a 5/16"-18 threaded steel stem. Glides are utilized with a Black nylon glide locking spacer (patent pending). The spacer has steel 5/16"-18 threaded hole. The spacer and glide combination allows for interchangeability between glides and casters without a change in height of the desk or table surface.

TECHNICAL SPECIFICATIONS

Undersurface Accessories

Book Basket

Optional book basket is made of chrome plated 7 mm diameter solid steel wire. Fastens to underside of top with eight #12 x 3/4" Phillips pan head screws. Book basket is only available on the Ruckus Post-Leg Desk.

Small & Large Polypropylene Book Boxes (under desk)

Optional solid molded thermoplastic polypropylene book box. Translucent finish helps provide safe environment while allowing for some degree of personal privacy. Molded-in pencil tray keeps items conveniently inside book box within easy reach, not on the floor or in the back of the book box. Fastens to underside of top with nine #12 x 3/4" Phillips pan head screws. Small and large poly book boxes are only available on Ruckus Post-Leg Desks.

Small & Large Steel Book Boxes (under desk)

Optional formed sheet steel book box is constructed of 16-gauge cold-rolled steel (C.R.S) and features a powder-coat painted finish in select KI colors. Fastens to underside of top with six #12 x 3/4" Phillips pan head screws. Small and large steel book boxes are only available on Ruckus Post-Leg Desks.

Removable Tote Storage

Totes are molded from talc-filled polypropylene containing an anti-static additive, which adds strength, rigidity and reduces the attraction of dust. Totes are completely translucent for visibility of the contents within them, and they are compatible with most cleaners used in schools. Durable translucent polycarbonate rails are mounted to the underside of the worksurface for the totes to slide intuitively in and out. Rails contain a gravity-activated "stop" feature to prevent accidental tote drops and messes. Removable tote storage is available on both the Ruckus Post-Leg Desks and select Activity Tables.

Book Bag Hook

Optional book bag hook is formed from 1/4" solid wire rod and is chrome plated for long lasting wear resistance. Fastens to underside of top with two #12 x 3/4" Phillips pan head screws. Hook can be combined with any of the under storage options. Book bag hook must be ordered separately as an accessory.

(model RDEEA2436 with caster/glide base shown)

(bottom view)

Note: Desk height dimensions in the chart above (excluding RDEHA models) represent desks with a nominal worksurface thickness of 1/4". If the worksurface thickness is 3/4", 1/2" must be subtracted from the "desk height" column in the chart. Reference the "Desk/Table Storage Dimensions" charts on pages 8-10 for storage clearance dimensions.

Note: For Ruckus Post-Leg Rectangular Desk models RDEAA2030, RDEEA2030, RDEFA2030 and RDEHA2030 the entire Ruckus chair frame will not fit between the legs, and therefore will not stack on the desk surface.

TECHNICAL SPECIFICATIONS

Steel Base Shell

Components consist of top, bottom, sides, back uprights, bottom and top reinforcements, spot welded and metal insert gas (MIG) welded together.

The top of the cabinet is 19-gauge cold-rolled steel (C.R.S.) with 1 1/8" flanges, on four sides. The front face has an additional flange formed inward to provide additional strength.

The back of the cabinet is 20-gauge C.R.S. and is formed on four sides to provide strength. The bottom is 20-gauge C.R.S. with a flush upper surface and flanged downward to provide a welding surface with the sides and back. The front face is formed down 1 1/8" and inward to provide additional strength.

Each shell has double wall sides from 20-gauge C.R.S.; the inner panels of tote units are pierced on approximately 3 1/4" centers to allow molded plastic slide rails to be attached for totes. The cubby units are punched to accept fixed shelves dividing the section in half. The front flange of the outer side panels are formed to fit inside the channel formation of the side panel; the rear edge is offset formed for maximum strength and a flush alignment with the back return. Each shell has 18-gauge front and back upright members spot welded to the sides providing vertical strength. Top reinforcements are spot welded to the top and MIG welded to the vertical upright members to provide resistance against racking. Center partitions are two piece 20-gauge steel fabricated panels spot welded together with opposing flanges to be screw mounted to the top and bottom panels of the shell, punches with a matching pattern to the side of the units.

The bottom is fitted with two 18-gauge MIG welded in place structurally formed reinforcements which are located along the front and back of the cabinet. The reinforcements have two U-channel inner reinforcements with extruded holes to accept the tri-lobe screws that affix the casters.

Double-faced units are created using two single-faced units placed back-to-back, joined by a 12-gauge drop-in ganging plate and secured by the worksurface top.

Worksurface

Worksurfaces are designed to overhang the storage units. See dimensions for available sizes.

Laminate Worksurface

The laminate worksurfaces are 1 1/4" thick and consist of a particleboard core with a HPL surface, featuring a 74P (2 mm polypropylene) bonded edge for tamper and moisture resistance. All tops are pre-drilled for dowels and thumb screws for attaching the top to the units, as well as optional power modules and bag hooks at the job site.

Phenolic Resin Worksurface

Solid phenolic worksurface is a 1" thick, self-supporting flat panel based on thermosetting resins, homogeneously reinforced with cellulose fibers and manufactured under high heat and pressure. The worksurface has a pigmented resin, decorative surface that is electron-beam cured. All tops are pre-drilled for dowels and thumb screws for attaching the top to the units, as well as optional power modules and bag hooks at the job site.

Butcher Block Wood Worksurface

Hard Rock Maple wood butcher block worksurface is 1 1/4" thick and flat edge grain construction. Blocks are finger jointed, randomly placed and finished with clear, semi-gloss Varnique finish. All tops are pre-drilled for dowels and thumb screws for attaching the top to the units, as well as optional power modules and bag hooks at the job site.

TECHNICAL SPECIFICATIONS

Casters

Each unit has four industrial grade casters with 75 mm grey non-marking thermoplastic rubber wheels with a 25 mm tread. Casters are plate mounted with double ball bearing swivel head and a housing made of bright zinc plated pressed steel. The two front casters are total locking preventing swivel as well as rolling, the two rear casters are swivel and free rolling. The overall height of the casters are 100 mm.

Book Bag Hook (optional)

Optional book bag hook is formed from 1/4" solid wire rod. Chrome finish provides long lasting wear resistance. Hook fastens to the underside of top with two #12 x 3/4" Phillips pan-head screws. Book bag hook is field installed. Worktable overall size determines the number of book bag hooks included.

Power (optional)

All power modules have a 10 ft cord with 3-prong plug, and ship with wire management. Hook and ladder, screw-in wire management is provided to manage cords along the underside of the surface, as well as an adhesive-backed plastic channel to manage cords along the vertical surface of the storage. Modules and wire management are field installed. Modules are available in Black or KI's Cool Grey.

Dean Clamp-On Power Module

Dean clamp-on power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port. Available on 30" x 54" Ruckus worktables.

Dean Clamp-On Power Module with Wireless Charging (for Qi-enabled devices)

Dean clamp-on power module with wireless charging consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one wireless charging lid (for Qi enabled devices). Available on 30" x 54" Ruckus worktables.

Dean Undersurface Power Module

Dean undersurface mounted power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port. Available on 48" x 54" & 60" x 54" Ruckus worktables.

Doors (optional)

The doors are single wall construction with a structural hinge channel running the length of the door. Self-closing European style hinges with 110-degree swing, provide 3-way adjustment of door to ensure consistent gapping and operation. Each steel door is standard with a key lock. All doors are inset.

Beveled Door Pull

Beveled door pull is made from cast zinc. It mounts using two machine screws to a steel door. It is available in a satin chrome or black finish.

Cubby Shelves

All fixed cubby shelves are 3/4" thick with flanges, front and back, constructed of 22-gauge material. Each shelf is screw mounted in four places with #10 screws into the outer panel and center panel to create separation between modules. Each section has one centered fixed shelf. Shelves are powder-coat painted.

Locks

Locks are included on every door:

Standard Key Lock

The standard lock is a high-security double-bit lock. The double-bit lock offers superior security when compared to a single-bit lock. Units are standard with random keys in a range of 994 different numbers. Specific keying combinations are available at no additional charge (this information must be included with order). Locks can be master keyed. Available in satin chrome or black finishes.

TECHNICAL SPECIFICATIONS

Finish

Units are offered in numerous powder-coat colors. Powder-coat application is a hybrid epoxy, baked on to provide a scratch and stain resistant finish. Base and doors may be specified in separate colors for no upcharge. Mechanical components are plated or finished with other protective coatings.

Totes

Totes are translucent polypropylene and available 3" or 6" depths for use with Ruckus worktables.

Tote Storage Removable Shelf

Removable shelves are constructed of 22-gauge steel with 1/4" thick with flanges front and back. Shelf is finished with powder-coat painted to color of choice. Each shelf will slide into place using the available tote rail set and locks into place once fully recessed. Each shelf can be easily removed or relocated by lifting up on the back of shelf and pulling it toward user.

Tote Storage Configurations

Ruckus worktables with tote storage, in any tote configuration beyond the preconfigured option, must be quoted through a product modification request. Additional totes can be ordered in kits with a quantity of six totes (rail sets included) and can be placed into any empty Ruckus worktables with Single or Double-Face tote storage, without the use of tools.

An optional shelf can be ordered to replace a tote. This shelf will slide into place using the available rail sets. Steel shelf is finished with powder-coated paint steel. Does not require tools to install.

Compliance

Ruckus storage meets or exceeds ANSI/BIFMA X.5.9-2019 and X.5.5-2019 standards.

STATEMENT OF LINE

Ruckus Single-Face Worktables

Ruckus Double-Face Worktables

RUCKUS WORKTABLE FEATURES

- A. Surface**
Three distinct worksurfaces support active learning; butcher block wood, laminate or phenolic resin.
- B. Optional Power**
Above or under surface power modules support classroom technology and provide charging for devices.
- C. Hooks**
Worktable overall size determines the number of book bag hooks included (one per user).
- D. Storage**
Storage within the base keeps learning resources at hand and learning spaces neat; cubby and/or tote storage available with or without locking doors. Contrasting door colors available.
- E. Fits Through Doorways**
Toolless removable worksurfaces and two-piece base design ease relocation.
- F. Casters**
Industrial-grade 3" casters meet the rigorous demand of hands-on learning spaces.

PRODUCT SPECIFICATIONS ■

Ruckus® Cubby & Bookcase

November 2023

TECHNICAL SPECIFICATIONS

Shell

The shell is a common construction that consists of steel bottom, sides, back, uprights, with laminated wood top. Inside double-face units, a center divider is screw mounted in each section to separate the front and back sides. All panel bottoms are mounted on one common steel base.

Single-Face Units - Overall Size with Casters or Glides Included: Nominal vs. Actual

36w x 18d x 36h storage: 36¹/₈" wide by 18¹/₄" deep by 36" high
 36w x 18d x 42h storage: 36¹/₈" wide by 18¹/₄" deep by 42" high
 54w x 18d x 36h storage: 53⁷/₈" wide by 18¹/₄" deep by 36" high
 54w x 18d x 42h storage: 53⁷/₈" wide by 18¹/₄" deep by 42" high

Double-Face Units - Overall Size with Casters or Glides Included: Nominal vs. Actual

36w x 24d x 36h storage: 36¹/₈" wide by 24¹/₄" deep by 36" high
 36w x 24d x 42h storage: 36¹/₈" wide by 24¹/₄" deep by 42" high
 54w x 24d x 36h storage: 53⁷/₈" wide by 24¹/₄" deep by 36" high
 54w x 24d x 42h storage: 53⁷/₈" wide by 24¹/₄" deep by 42" high

Laminate Worksurface - Storage

The laminate worksurfaces are 1¹/₄" thick and consist of a particleboard core with a HPL surface. 74P (2 mm PVC-free) banding is applied to the edges. All tops are pre-drilled for mounting of end panels, center panel(s), center dividers and are assembled in the factory.

Vertical Panels

Each 1" thick vertical panel features double-wall steel construction. The outer vertical panel consists of 20-gauge material with double flanges formed on both vertical edges and single flanges formed on the top and bottom. The vertical edges of the outer panel have an 18-gauge reinforcing member welded in place to provide structural integrity. The inner vertical panel is 18-gauge with double flanges formed on the vertical edges and single flanges formed on the top and bottom edges. Two keyhole pads of 16-gauge are welded into the top of the end vertical panel to interface with shoulder screws for mounting to the laminate top. The outer and inner panels are spot welded together, as well as fastened together at the bottom with the threaded inserts that accept the mounting bolt for the base. Bonded to both surfaces within the panel is a lightweight honeycomb core material to improve panel rigidity. Cubby vertical interior panels feature pre-punched holes for connecting the center dividers, shelves, coat hook, hinge mounts and slot for lock engagement. Bookcase vertical interior panels feature pre-punched holes for connecting the center dividers, adjustable shelves, coat hook, hinge mounts and slot for lock engagement.

Center Divider (Double-Face Units Only)

One center divider is screw mounted in each section to separate the front and back sides. This is constructed of 20-gauge material with 1/4" side flanges for mounting. The divider is a structural component, and has the security feature that it is not removable from any single storage component. This prevents unauthorized access when locking doors are used.

Base

The 1¹/₄" thick base ties together the vertical panels creating the bottom and complete structure. Bases are 18-gauge steel. Each base also contains an 18-gauge reinforcement strip on the front and back side of the base bottom. Each reinforcement strip is spot welded in place. Each strip consists of two 1/2" weld nuts on each end to accept the caster or glide stem.

TECHNICAL SPECIFICATIONS

Casters or Glides

Each unit may be specified with either casters or glides. Casters or glides do not extend out from the side of the unit shell. Both caster and glides have a 1/2" diameter threaded stud to mount to the bottom of the base and are interchangeable.

Casters

All caster bodies are twin-wheel hooded design with 2³/₄" diameter wheels. All four casters swivel and two casters will have a lock. Casters will be black.

Glides

All glides are 2¹/₄" telescoping adjustable glides. Glides are made of a two-piece construction and both pieces are made of durable nylon. Each glide has a white base with a black body.

Hooks - Storage

Utility hooks are made of 11-gauge steel and have a grey powder-coat finish. Each hook is attached to the interior sides of the opening using two #10 tapping screws.

Doors

The doors are single wall construction with a structural hinge channel running the length of the door. Self-closing European style hinges with 110-degree swing, provide 3-way adjustment of door to ensure consistent gapping and operation. The steel door is standard with a lock and is specified with one of the lock options (see lock section below). If left or right designation is noted, left or right specifies which side it is hinged on. All doors are inset.

Door Pulls

A door pull is only available when the standard key lock is chosen. Refer to "Locks" specifications on the next page for full details. One pull type is available:

Beveled Pull

Made from cast zinc. It mounts by use of two machine screws to a steel door. It is available in a satin chrome or painted black powder-coat finish.

Shelves

All shelves are 1/2" thick with flanges, front and back, constructed of 22-gauge material. Each cubby fixed shelf is screw mounted in four places with #10 screws into the outer panel and center panel to create separation between modules. Each bookcase unit features two adjustable shelves per section which can be adjusted in 1" increments. The shelves are mounted in two places, with adjustable shelf brackets into the outer panel and center panel, to create separation between modules.

Cubbies - Open Units

Each cubby unit includes two fixed shelves per section.

Interior Clearance:

36" high unit: 16¹/₂" wide by 10⁷/₈" deep by 9⁵/₈" high
 42" high unit: 16¹/₂" wide by 10⁷/₈" deep by 11¹/₈" high

Cubbies - With Doors

Each cubby with door includes one locking door and two fixed shelves per section.

Interior Clearance:

36" high unit: 16¹/₂" wide by 10⁷/₈" deep by 9⁵/₈" high
 42" high unit: 16¹/₂" wide by 10⁷/₈" deep by 11¹/₈" high

Bookshelves

Each bookshelf unit features two adjustable shelves per section.

Interior Clearance:

36" high unit: 34" wide by 10⁷/₈" deep by 9⁵/₈" high
 42" high unit: 34" wide by 10⁷/₈" deep by 11¹/₈" high

Bookcase Capacity

The most practical way to figure book capacity is on a linear feet basis. A good average for public and school libraries is 8.3 books per linear foot. The children's section capacity in elementary schools and public libraries may be raised to 15 books per foot, while the shelving capacity for academic libraries is averaged to be 6.7 books per linear foot. A per shelf capacity of 25 adult, 45 children, and 20 academic books can be established.

Ruckus Bookcase - Book Capacity			
Bookcase Type	Adult Book Capacity	Children Book Capacity	Academic Book Capacity
Single-Face Bookcase	69 books per unit (23 books per shelf)	126 books per unit (42 books per shelf)	54 books per unit (18 books per shelf)
Double-Face Bookcase	138 books per unit (23 books per shelf)	252 books per unit (42 books per shelf)	108 books per unit (18 books per shelf)

Bookcase shelves have a weight capacity of 132 lb per shelf.

Locks

Locks are available anywhere a door is used, with four locking options for Ruckus Storage:

Standard Key Lock (comes with pull option only)

The standard lock is a high-security double-bit lock. The double-bit lock offers superior security when compared to a single-bit lock. Units are standard with random keys in a range of 994 different numbers. Specific keying combinations are available at no additional charge (this information must be included with order). Locks can be master keyed.

Padlock

Robust zinc housing allows the end user to apply their own combination lock. Lock is backed with a stainless steel escutcheon plate to protect the paint finish.

Combination Lock

A 4-dial combination lock allows user to access cubby without the need of a key. All locks are shipped with a factory set code 3333, combination is set by the end user or facility manager. In the case of lost or forgotten codes, a master key override will unlock the unit and allow the lock to be recoded. Combination lock features solid zinc construction and a four digit combination allows up to 10,000 unique codes.

Digital Lock

Stand-alone battery operated lock allows user immediate and simple keypad access without the need of a key. All locks are shipped with a factory set code 2244, the new access code is set by the end user or facility manager. Users have the flexibility to set and change a personal entry code, while a preset master code ensures that supervisor access is always available, or in an emergency, the key code can be overridden.

Features:

- Up to 80,000 operating cycle's battery life
- Low battery warning
- Battery failure key override
- 8-digit master code and 6-digit sub-master codes
- 4-digit user code (10,000 unique codes)
- 6-digit technician code
- Code changeable
- Not suitable for chlorinated environments
- Can be programmed for single use, set at time of use, or fixed combination mode

Finish

Units are offered in numerous powder-coat colors. Powder-coat application is a hybrid epoxy, baked on to provide a scratch and stain resistant finish. Shells and doors may be specified in separate colors for no upcharge. Mechanical components are plated or finished with other protective coatings.

TECHNICAL SPECIFICATIONS

Shell

Components consist of top, bottom, sides, back, uprights, bottom and top reinforcements, spot welded and MIG welded together.

The top is 19-gauge cold-rolled steel (C.R.S.) with 1 1/8" flanges, on four sides. The front face has an additional flange formed inward to provide additional strength.

The back is 20-gauge C.R.S. and is formed on three sides to provide a flush seamless back and top surface.

The bottom is 20-gauge C.R.S. with a flush upper surface and flanged downward to provide a welding surface with the sides and back. The front face is formed down 1 1/8" and inward to provide additional strength.

Each shell has double wall sides and center partition(s) fabricated from 20-gauge C.R.S.; the inner panels are pierced on approximately 3 1/4" centers to allow molded plastic slide rails to be attached for totes. The front flange of the outer panels is formed to fit inside the channel formation of the side panel; the rear edge is offset formed for maximum strength.

Each shell's front and back has 18-gauge upright members spot welded to the sides providing vertical strength. Top reinforcements are MIG welded to the vertical upright members to provide resistance against racking.

Center partitions are two piece 20-gauge steel fabricated panels spot welded together with apposing flanges to be screw mounted to the top and bottom panels of the shell.

The bottom is fitted with two 18-gauge MIG welded in place structurally formed reinforcements which are located along the front and back of the cabinet. The reinforcements have 2-cast aluminum plates mounted to their ends to distribute weight and accept the caster or glide stem.

Single-Face Tote Storage - Overall Size with Casters or Glides Included: Nominal vs. Actual

30w x 18d x 28h tote storage: 29 5/16" wide by 18 1/8" deep by 27 1/4" high

30w x 18d x 41h tote storage: 29 5/16" wide by 18 1/8" deep by 40 1/4" high

44w x 18d x 28h tote storage: 43 5/16" wide by 18 1/8" deep by 27 1/4" high

44w x 18d x 41h tote storage: 43 5/16" wide by 18 1/8" deep by 40 1/4" high

Laminate Worksurface (optional)

The laminate worksurfaces are 1 1/4" thick and consist of a particleboard core with a HPL surface. 74P (2 mm PVC-free) banding is applied to the edges.

Single-Face Tote Storage - Overall Size with Casters, Glides and Worksurface Included: Nominal vs. Actual

30w x 18d x 29h tote storage: 30 1/4" wide by 18 1/4" deep by 29" high

30w x 18d x 42h tote storage: 30 1/4" wide by 18 1/4" deep by 42" high

44w x 18d x 29h tote storage: 44 1/8" wide by 18 1/4" deep by 29" high

44w x 18d x 42h tote storage: 44 1/8" wide by 18 1/4" deep by 42" high

TECHNICAL SPECIFICATIONS

Casters or Glides

Each unit may be specified with either casters or glides. Casters or glides do not extend out from the side of the unit shell. Both caster and glides have a 1/2" diameter threaded stud to mount to the bottom of the base and are interchangeable.

Casters:

All casters are twin-wheeled, non-hooded, molded nylon with 2 3/4" diameter wheels. All four casters swivel and two casters will have a lock. Casters are Black in color.

Glides:

All glides are 2 3/4" telescoping adjustable glides. Glides shall be made of two-piece construction and both pieces are made of durable nylon. Each glide has a white base with a black body.

Doors (optional)

Tote cabinet doors feature double wall construction, 22-gauge cold-rolled steel (C.R.S.) outer and inner panels are sandwiched together, spot welded and TIG welded to form a rigid assembly. Standard Ruckus pulls (beveled pulls) are cast zinc and are installed on the top face of each door. Pulls mount by use of two machine screws to the steel door. Pulls are available in satin chrome or powder-coat painted black finish. 110° European hinges prevent the doors from contacting an adjacent cabinet door or drawer and provide 3-way adjustment.

Locks

Locks are included on every door:

Standard Key Lock (comes with pull option only) - The standard lock is a high-security double-bit lock core. The double-bit lock offers superior security when compared to a single-bit lock. Units are standard with random keys in a range of 994 different numbers. Standard locks are available with satin chrome or black powder-coat finishes. Specific keying combinations are available at no additional charge (this information must be included with order). Specific keyed locks are available only with black powder-coat finish. Locks can be master keyed.

Finish

Units are offered in numerous powder-coat colors. Powder-coat application is a hybrid epoxy, baked on to provide a scratch and stain resistant finish. Shells and doors may be specified in separate colors for no upcharge. Mechanical components are plated or finished with other protective coatings.

TECHNICAL SPECIFICATIONS

Tote Storage Configurations

Ruckus Tote Storage is comprised of four different size enclosures, on casters or glides, with or without doors. Each of these unit heights and look can be changed by including the optional 1 1/4" laminated wood worksurface. Three preconfigured options are available: All 3" totes, all 6" totes or a combination of 3" & 6" totes. Illustrated below are the 30" wide 2-column units, 44" wide, 3-column units are also available.

Tote storage is available in two heights, allowing configuration heights of either 18" or 27".

Preconfigured Options:

Short Storage Unit

Tall Storage Unit

Note: There is 3" of tote storage space open at the top of each column of the tall storage unit (42" high) when pre-configured with 6" totes.

TECHNICAL SPECIFICATIONS

Tote Storage Configurations (cont.)

Ruckus Tote Storage, in any tote configuration beyond the preconfigured options, must be ordered separately and installed on site. The 3", 6", 9" and 12" high totes can be ordered in kits with a quantity of six totes (rail sets included), and can be programmed into any empty or pre-existing Ruckus tote storage units, without the use of tools.

Shown below are two examples of non-preconfigured layouts. Customers can specify any combination of totes as long as their accumulated heights do not exceed 18" per column for Short Tote Storage units, and do not exceed 27" per column for Tall Tote Storage units.

Build Your Own Examples:

Short Storage Unit

Tall Storage Unit

PRODUCT SPECIFICATIONS

Ruckus® Whiteboards & Accessories

July 2024

TECHNICAL SPECIFICATIONS

Ruckus Whiteboard

Dry-Erase Whiteboard (Side 1)

Dry-erase whiteboard surface is constructed of .08" thick opaque white polycarbonate resin with UV curing.

Polyester Felt (Side 2)

Polyester felt is constructed from .16 mm thick tackable, 100% post-consumer recycled polyester core felt in the color Flannel. The core material has a density of 2800 g/m² and is sound absorbing tested to ASTM C423 with an NRC rating of 0.55 when using no air gap (A-mount testing method) and an NRC rating of 0.60 with a 5 mm air gap. The polyester felt is in accordance with ASTM-E84 and achieve a Class A Flame spread.

Extra large whiteboards are constructed with two aluminum extruded stiffeners.

Magnetic Dots (Fasteners)

Securing the whiteboard to the polyester felt core material are two 1/4-28 x 3/8" and two 1/4-28 x 1/4" metallic socket flat head screws through custom nylon 1/4" countersunk washers, threading into 1/4-28 nylon nuts at the backside of the felt core material. The flat heads of the metallic fasteners may be used to attach customer supplied magnetic accessories.

Leather Straps

Constructed of reconstituted (bonded) leather in matte black. Straps are 1.16" wide and permit hanging of Ruckus whiteboards on wall tracks and mobile display carts.

Pivoting Dock

Pivoting dock assembly consists of a table clamp and a whiteboard clamp, constructed of 14-gauge steel and secured with a screw that allows for 360 degrees of rotation. Whiteboard clamp is covered in a protective black plastic coating. Two thumb screw sizes are provided to clamp to different worksurface thicknesses. The 3/4" thumb screw will accommodate worksurface thicknesses from 1/4" to 1 1/4". The 1 1/4" thumb screw will accommodate thicknesses from 1/2" to 1 3/4". Steel pivoting dock is powder-coat painted in black only.

Wall Track

Wall track rail is formed of 16-gauge steel, powder-coat painted in various standard KI finishes. 48" wide and holds one to three white boards depending on size. Attachment hardware not included. Reference (KI-AI-000098) Ruckus Whiteboards - Wall Track - Assembly Instructions for more information.

Mobile Display Cart

Mobile display cart is constructed with 1" diameter, 13-gauge steel tubing, bent, cut, welded and secured with fasteners. The side panels and inner shelf are constructed of 14-gauge steel, stamped and formed. All steel is powder-coat painted in various standard KI finishes. Storage section on the cart contains a non-skid pad. Available with two optional polypropylene 6" tote storage drawers.

Casters

Mobile display cart ships with four locking casters with hard plastic wheels. Caster wheel height is 3", overall mounting height is 4", and caster unit is black. Caster bodies include a 1/4" x 1/4" grip-ring stem, which inserts into a grip-ring adapter in the legs of the mobile display cart. Casters are field replaceable.

Widget

Widget is constructed from .16 mm thick, 100% post-consumer recycled polyester felt in the color Flannel.

Undersurface Hook

Undersurface hook is formed from 1/8" solid wire rod and is chrome plated, which provides long lasting wear resistance. Hook fastens to the underside of the worksurface with two #12 x 3/4" Phillips pan-head screws. Hook is field installed.

TECHNICAL SPECIFICATIONS

Ruckus Whiteboard & Mobile Display Cart Capacity

Size	Display Capacity	Storage Capacity	Total Capacity
Small	12	39	51
Medium	8	24	32
Large	4	18	22
Extra Large	4	11	15

Note: display cart shelves are deep enough to store an additional row of whiteboards behind boards being displayed.

VISUAL GUIDE

Ruckus Whiteboard & Pivoting Dock

Pivoting dock allows small, medium and large Ruckus whiteboard to rotate 360 degrees on the table or student desk.

Ruckus Whiteboard & Undersurface Hook

Small and Medium sized Ruckus whiteboards that are not in use can be stored on optional undersurface hooks. Ruckus post-leg desks and rectangle activity tables (excluding 20" deep tables) come with pre-drilled locations for installing undersurface hooks.

Note: Undersurface hooks cannot be installed on Ruckus cantilever desks and lecterns when book basket storage is specified, or on 20" deep rectangle activity tables. Contact KI customer service at 1-800-424-2432 for other undersurface hook solutions.

VISUAL GUIDE
Ruckus Whiteboard & Widget

Widgets are a multi-functional accessory that pair with Whiteboards to enhance use and support multiple configurations. Widgets can help to create a stand for display or drafting, and they are useful to create dividers or privacy screens. In addition, each Widget can hold one standard size dry-erase marker (approximately $\frac{1}{8}$ " diameter) or two smaller sized dry-erase markers (approximately $\frac{3}{16}$ " diameter).

Note: The graphics on this page illustrate markers being housed in the marker holder feature of the widgets. Dry-erase markers are customer supplied.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select fire retardant.
 NFR - Compliance to TB 117-2013
 FR - Compliance to TB 133

C Select poly color.
 Refer to the **Product Color Options** page in this price list.

D Select frame finish.
 Refer to the **Product Color Options** page in this price list.

E Select glide option.
 GFT - Felt glides
 GPL - Nylon plastic glides
 GSL - Steel glides

F Select upholstery grade/color.
 Refer to ki.com/fabrics

UPHOLSTERY INFORMATION

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNY - Nylon glides
CCC - Casters

- F** Select under table storage.
NB - No book storage
BBS - Poly book box, small; add \$28
BBL - Poly book box, large; add \$30
BR - Book basket; add \$40
RT - Removable storage tote; add \$45
SBBS - Steel book box, small; add \$65
SBSL - Steel book box, large; add \$75
 BBL & SBSL options are not available on the small desk sizes.
- G** Select book basket color.
 Refer to the **Product Color Options** page in this price list.
 Only if book basket (BR) storage is selected.
- H** Select steel book box color.
 Refer to the **Product Color Options** page in this price list.
 Only if steel book box (SBBS or SBSL) storage is selected.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNV - Nylon glides

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNV - Nylon glides

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern.
 Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request.
 Contact customer service for details.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Felt glides - GFT and Nylon glides - GNY

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNY - Nylon glides
 Base options for Floor Activity Height are ONLY

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color/pattern code
 Nevamar - LN/supplier's color/pattern code
 Wilsonart - LW/supplier's color/pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION**Additional Laminate Offering**

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color/pattern code
Nevamar - LN/supplier's color/pattern code
Wilsonart - LW/supplier's color/pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.

- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select pull option.
 - SB** - Beveled pull Black
 - SS** - Beveled pull Satin Chrome
- C** Select base option.
 - 4CW** - 4 black casters
 - 4GB** - 4 black glides
- D** Select top laminate surface. Refer to the **Product Color Options** page in this price list.
- E** Select edge color. Refer to the **Product Color Options** page in this price list.
- F** Select shell color. Refer to the **Product Color Options** page in this price list.
- G** Select front door color.

Refer to the **Product Color Options** page in this price list.

- H** Select lock option.
 - KS** - Key standard
 - NLC** - No lock core
 - KA** - Key alike

I Select lock color. Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

- Formica - LF/supplier's color pattern code
- Nevamar - LN/supplier's color pattern code
- Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.

- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select pull option.
 86 - Beveled pull Black
 85 - Beveled pull Satin Chroma
- C** Select base option.
 4CW - 4 black casters
 4GB - 4 black glides
- D** Select top laminate surface.
 Refer to the **Product Color Options** page in this price list.
- E** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- F** Select shell color.
 Refer to the **Product Color Options** page in this price list.
- G** Select front door color.

Refer to the **Product Color Options** page in this price list.

- H** Select lock option.
 KS - Key standard
 NLC - No lock core
 KA - Key alike

I Select lock color.
 Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

- Formica - LF/supplier's color pattern code
- Nevamar - LN/supplier's color pattern code
- Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select storage/accessories.
- NB - No book storage
 - BH - Book bag hook; add \$10
 - BR - Book basket; add \$72
 - CL - Swiveling cup holder - left side; add \$64
 - CR - Swiveling cup holder - right side; add \$64
 - BHCL - Book bag hook-right side & cup holder-left side; add \$70
 - BHCR - Book bag hook-left side & cup holder-right side; add \$70
 - BRCL - Book basket & cup holder - left side; add \$136
 - BRCR - Book basket & cup holder - right side; add \$136
- C** Select base option.
- GFT - Felt glides
 - GPL - Nylon plastic glides
 - GSL - Steel glides

- D** Select top laminate surface. Refer to the **Product Color Options** page in this price list.
- E** Select edge color. Refer to the **Product Color Options** page in this price list.
- F** Select base color. Refer to the **Product Color Options** page in this price list.
- G** Select book basket color. Refer to the **Product Color Options** page in this price list. When Book basket/rack & cup holder (BRCL or BRCR) is selected the cup holder is always starlight silver metallic.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

- Formica - LF/supplier's color pattern code
- Nevamar - LN/supplier's color pattern code
- Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How to Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
73P - 3/4" laminate top w/73P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNV - Nylon glides
 Base options for Floor Height Adjustable are:

ONLY Felt glides - GFT and Nylon glides - GNV

- F** Select under table storage.
N8 - No book storage
BBS - Poly book box, small; add \$32
BBL - Poly book box, large; add \$37
BR - Book basket; add \$48
RT - Removable storage tote; add \$49
SBBS - Steel book box, small; add \$70
SBBL - Steel book box, large; add \$80
 BBL & SBBL options are not available on the small desk sizes.
- G** Select book basket color.
 Refer to the **Product Color Options** page in this price list.
 Only if book basket (BR) storage is selected.
- H** Select steel book box color.
 Refer to the **Product Color Options** page in this price list.
 Only if steel book box (SBBS or SBBL) storage is selected.

- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNV - Nylon glides

- F** Select under table storage.
NB - No book storage
BSB - Poly book box, small; add \$32
BBL - Poly book box, large; add \$37
BR - Book basket; add \$48
RT - Removable storage tote; add \$49
SBS - Steel book box, small; add \$70
SBBL - Steel book box, large; add \$80
 BBL & SBBL options are not available on the small desk sizes.
- G** Select book basket color.
 Refer to the **Product Color Options** page in this price list.
 Only if book basket (BR) storage is selected.
- H** Select steel book box color.
 Refer to the **Product Color Options** page in this price list.
 Only if steel book box (SBSB or SBBL) storage is selected.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
CCC - Casters
BCF - Casters/felt glides
BCN - Casters/nylon glides
GFT - Felt glides
GNV - Nylon glides

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

BCN	- Casters/nylon glides
GFT	- Felt glides
GNV	- Nylon glides

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern.
 Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request.
 Contact customer service for details.

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See "How To Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.

- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

ONLY Felt glides - GFT and Nylon glides - GNY

- A** Select basic model/edge style.
74P - 1-1/4" laminate top w/74P edge band
- B** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- C** Select surface finish.
 Refer to the **Product Color Options** page in this price list.
- D** Select base finish.
 Refer to the **Product Color Options** page in this price list.
- E** Select base option.
- CCC - Casters
 - BCF - Casters/felt glides
 - BCN - Casters/nylon glides
 - GFT - Felt glides
 - GNY - Nylon glides
- Base options for Floor Height Adjustable are:

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select power option.
 NP - No power
 WPC2 - Two under-surface modules w/ USB-A/C and wire mgmt (10ft cords)
 See upcharge column for pricing.
- C** Select power module color.
 P1 - Black
 P2 - Cool Grey
- D** Select book bag hooks.
 NB - No book bag hook
 BH - Eight book bag hooks (chrome); add \$73
- E** Select base color.
 Refer to the **Product Color Options** page in this price list.
- F** Select top color.
 Refer to the **Product Color Options** page in this price list.
- G** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- H** Select door color.
 Refer to the **Product Color Options** page in this price list.
- I** Select door pull.
 S6 - Beveled pull Black
 S5 - Beveled pull Satin Chrome
- J** Select lock option.
 KS - Key standard
 NLC - No lock core
 KA - Key alike
- K** Select lock color.
 Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color/pattern code
 Nevamar - LN/supplier's color/pattern code
 Wilsonart - LW/supplier's color/pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color/pattern code
 Nevamar - LN/supplier's color/pattern code
 Wilsonart - LW/supplier's color/pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select pull option.
S6 - Beveled pull Black
S5 - Beveled pull Satin Chrome
- C** Select base option.
4CW - 4 black casters
4GB - 4 black glides
- D** Select top laminate surface.
 Refer to the **Product Color Options** page in this price list.
- E** Select edge color.
 Refer to the **Product Color Options** page in this price list.
- F** Select shell color.
 Refer to the **Product Color Options** page in this price list.
- G** Select front door color.

Refer to the **Product Color Options** page in this price list.

- H** Select lock option.
KS - Key standard
NLC - No lock core
KA - Key alike

I Select lock color.
 Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

 KA - Key alike

I Select lock color.
 Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering
 Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:
 Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.
