

REGIONS

INTRODUCTION

The Regions fabric upholstered partition dividing panel is a sophisticated and functional furniture solution designed by renowned designer David Fox for Worklyffe. This award-winning product is created to bring both aesthetic appeal and practicality to modern office spaces. The Regions panel system allows for an organized and dynamic workspace, enhancing privacy, promoting collaboration, and supporting flexible office layouts.

DESIGNER

The Regions fabric upholstered partition dividing panel is a sophisticated and functional furniture solution designed by renowned designer David Fox for Worklyffe.

1.Durability and Quality Construction: Crafted with premium materials, the Regions panels are built for long-term durability.

2.Optional Media Unit Integration: The Regions partition system is designed to work in tandem with an optional Media Unit, which can be integrated with the panels. This option enhances the versatility of the system, providing the ideal environment for collaborative tasks and team meetings that require technological support.

STITCHING DETAILS

Crafted with premium materials, the Regions panels are built for long-term durability. The core of each panel is made from high-quality PU foam, providing strength and stability, while the internal metal armature ensures structural integrity. This robust construction makes the Regions panels capable of withstanding the demands of a busy office environment, offering both privacy and aesthetic appeal.

FEATURES

Versatile and Modular Design: The Regions partition panel consists of both straight and curved panels, offering endless possibilities for configuration. Whether you need to create distinct zones in an open-plan office, separate meeting spaces, or define individual workstations, Regions panels can be arranged in an array of shapes and sizes to suit your unique requirements. This modular design allows you to add as many panels as needed, making it adaptable to spaces of any size, and easy to reconfigure as your workspace evolves.

TEXTURE

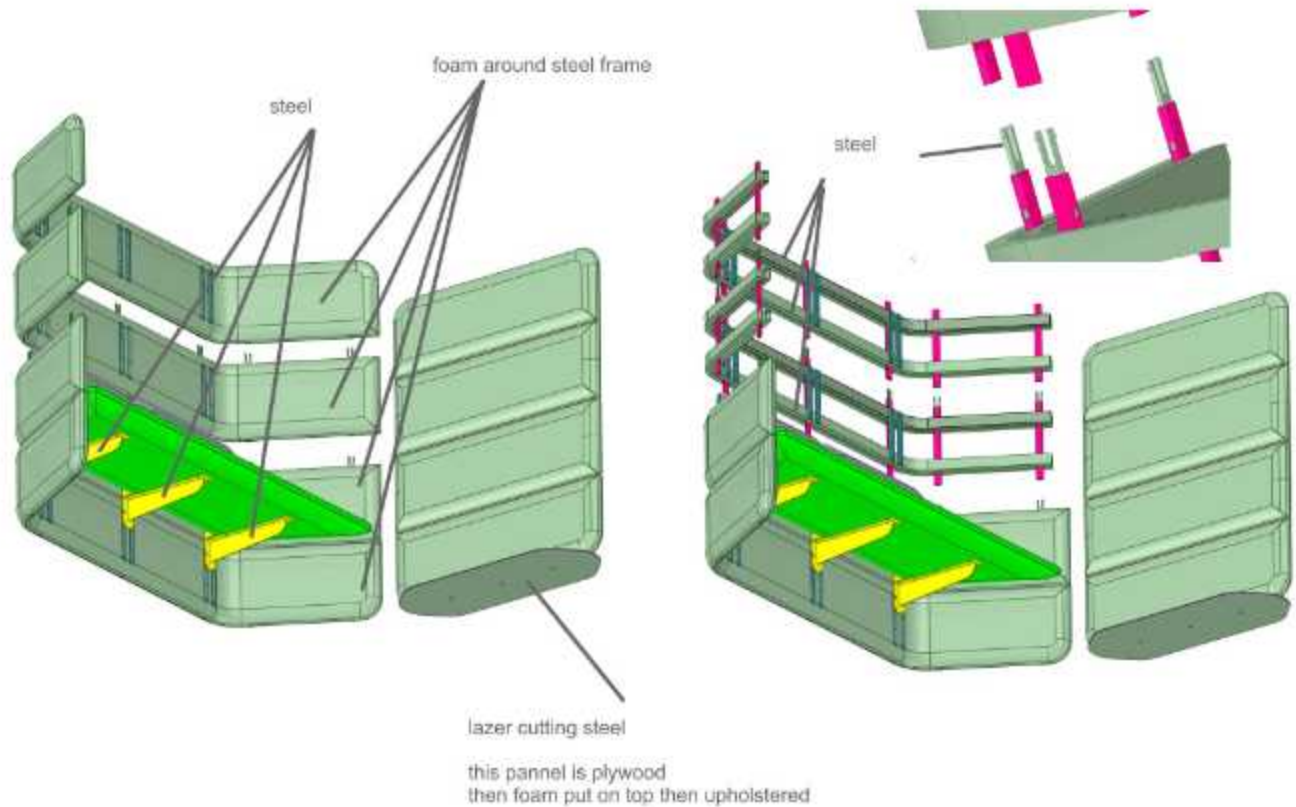

The fabric upholstery of the panels is designed to enhance their sleek appearance while also providing a soft, pleasant tactile feel. The rich textures and colors of the upholstery allow the panels to blend seamlessly with any office décor, creating a cohesive and professional atmosphere in your workspace.

1.Enhanced Privacy and Aesthetics: The Regions panels are engineered to provide visual privacy and create defined spaces within open-office layouts.

2.While the panels do not have acoustic dampening properties, they offer an effective solution for reducing distractions and improving focus. The clean, minimalist design of the panels contributes to a modern and stylish environment, allowing for a balance between privacy and openness.
